About Me

Aspiring software developer with knowledge of web and mobile application development. Familiar with building database-driven systems, administrative dashboards, and responsive applications through academic projects. Seeking an IT internship to apply technical skills, gain hands-on experience, and learn from industry professionals.

Technical Strengths

- Problem-solving in software development
- Collaborative team player
- Adaptable to new technologies
- Fast learner
- Detail-oriented in coding

Education

University of San Jose-Recoletos, Quadricentennial Building
Bachelor of Science in Information Technology
Cebu City , Philippines | 2021–Present

Relevant Experience

Virtual Assistant – Document Verification
Easybet | Remote | June 2026 - Present (Part time)

- Reviewed and verified identification documents and proof of residency for accuracy and validity

Tech Stack Handled

Web Development

- PHP
- HTML
- CSS
- JavaScript

Mobile Development

- Flutter (Dart)
- React Native

Database

- MySQL
- PostgreSQL

Programming Languages

- Java
- C++
- C#

Tools

- Git
- GitHub
- VS Code
- Figma

Frameworks & Technologies

- Laravel
- React

Projects

HemoLink – Community Blood Donor Registry and Matching Platform (Ongoing for Capstone)

- Developing a web and mobile-based blood donor registry with preliminary donor matching.
- Implementing role-based features for donors, patients, health workers, and administrators.
- Supporting community-based blood donation coordination through health worker verification and location-based donor matching.

Academic Administration Dashboard (PHP, MySQL)

- Developed a web-based academic management system with secure login and session authentication.
- Implemented full CRUD functionality for managing colleges, programs, departments, and students.

Flutter Expense Tracker

- Developed a cross-platform expense tracking app using Flutter.
- Enabled users to record, categorize, and monitor daily expenses.
- Designed an intuitive interface for easy financial management.
